

SYSTEMS AND METHODS FOR CREATING A VIDEO MONTAGE FROM TITLES ON  
A DIGITAL VIDEO DISK

ABSTRACT OF THE DISCLOSURE

Systems and methods for creating a video montage from titles on a digital  
5 video are disclosed. Montages include one or more video segments from one or more video  
titles assembled together into a single video montage. Systems include authoring tools for  
assembling montages and display tools for displaying montages. Methods include identifying  
video segments for incorporation into the montage, marking the segments, and using the  
markings to view the montage.
